

PLANETARY NEWS

February 2021 Volume 17 Number 2

Keeping in Touch

Studs Terkel wrote a book titled "HARD TIMES". The story relating the troubles of the depression. The 1920's were a time of relative prosperity, then the stock market crash occurred and life changed forever. The Virus has had a tremendous effect on all of us. Maybe not as bad as the depression for most of us, but for some. It has even affected our Club. You may have noticed the Planetary News has been shrinking in the number of pages. Well, it's because it's winter and we are not doing anything. Normally, we would be attending Sunday Brunch or at least having a few Coach House events. Yet so far this year, nothing and there is nothing scheduled for the next few months. This is not to say that we are all hiding in our garages, keeping our heads in the sand (or snow as it were). I'd like to suggest that the members take up pen and paper and record a few syllables about what you may have been doing or would like to do. This is kind of what we would have done at a Sunday Brunch. Sort of catch up. Consider it like writing a letter. Remember writing letters to relatives and others just telling them about conditions at home. During the next few weeks, please send The Editor some musings. Keeping in touch.
