

# PLANETARY NEWS

August 2021 Volume 17 Number 8

The Greater Milwaukee Model T Club participated in the South Milwaukee Heritage Days Parade again this year. And we provided rides for the Honor Flight Veterans. We had quite a turn out. Mike Zahorik, Lance & Chris Pauley, Jack

Gueldenzopf, Jim Jr & Jeff Clark, and Tim & Michelle Kirst. We all met at the legion post with the motorcycle club. Here we met the Honor Flight participants. We had a World War II man and two Korean War men. Around 10AM we grouped up and lined up on Milwaukee Avenue, just east of 10th Avenue. Here we waited for the parade to start. A number of people and parade participants walked up and down the waiting line and asked about the Model T's and the veterans. The parade route was west on Milwaukee Ave to 15th Avenue and then north a few blocks. Despite the warm weather there were many parade watchers. Fortunately, we were in the front of the parade, maybe 10th in line and the parade moved along at a good rate. We had no car trouble, until after the parade. That is when Jim Clark Jr.'s car started to act up on the way home. Jim and Jeff called us for help on their cell phone. Lance Pauley found that the carburetor was leaking quite badly. Probably a stuck float valve. A few solid raps on the carburetor and they were back on the road. All in all an enjoyable day. Pictures on page 10/11.
