2022 Overnighter

Aka “and then there were none tour” We hadn’t had an overnighter tour in several years and finally we had a place to go. We decided on the date of August 20 and 21. Eight people plus Mark and me signed up for the tour. We reserved rooms at the motel and made plans for the tour. About a month prior to the tour, one couple cancelled due to a family conflict. And then there were six. By the Thursday before the tour, another three people cancelled, and then there were three.

On Saturday, Jeff Clark and Jeff and Denise Schmitterger arrived at our house for coffee, muffins and donuts. The weather forecasters were predicting thunderstorms and heavy rain. Both Jeffs brought modern iron, but we opted to lead the tour in our Touring car, with the side curtains partially up. We left at 8:30 for the trip to Judi’s Place in Oostburg. It rained for about 45 minutes during the drive, but only a few drops got past the side curtains. Go to Page 10.
