MODEL A SWAP MEET

The 2023 Model A Swap meet marks the beginning of the 'new' old car driving season, or the rites of spring. The Milwaukee Model T Ford club and Dairyland Tin Lizzies were there in force. As it goes, twelve of us got up extra early and stopped at the Saw Mill Restaurant in Richfield for breakfast. You just can not walk through a swap meet on an empty stomach. We all had a good time discussing what we did over the winter and planned on for the up coming driving season. Besides the food was plentiful and good tasting. We left the restaurant about 8:30. The swap meet opens at 8:00, so we arrived fashionable later and missed the initial line up for admission, standing in the cold. This year, as in the past couple of pandemic years, the number of vendors and the crowd was reduced. There seemed to be less merchandise of the Model T and Model A era, but that didn't stop anyone from looking at each and every table, snooping through all the boxes and items hidden under the tables. Besides the thrill of the hunt for those long needed parts, you also meet other Old Car friends along the way. Seems we all have succumbed to the Old Car Hobby affliction. Go to Page 8.
